Working on my team spirit and my  
ability to adapt.

## EDUCATION

### Dublin City University

2023 — 2024

Dublin (Ireland)

Year abroad, group projects in Web Design, UX/UI and Data Analysis, which  
allowed me to improve and work in English.

### Epitech

2020 — 2025

Lille (France)

Preparing to graduate as a Software Engineering Expert.

I learned C (development of a shell, a compression algorithm, a CLI social  
network, an FTP client...), C++ (development of several video games and servers),  
Python (development of a trading bot and numerous math projects), JavaScript,  
Express.js, React (development of an IFTTT clone: web, server and mobile), and  
TypeScript (development of the back-end for my final year project: a trading bot  
marketplace).

### Marcq Private High School

2017 — 2020

Marcq-en-Baroeul (France)

Scientific Baccalaureate with highest honors.

## PROFESSIONAL EXPERIENCE

### 2023 : Web Front-End Developer - Popsell

6 months

Training in Vue.js and TypeScript, redesign of the front end of a back office for  
the company customers (upgrade from Vue.js 2 to Vue.js 3 + TypeScript)

### 2022 : Electric vehicle delivery driver - Bon'Allure

2 months

Development of my autonomy, efficiency and interpersonal skills.

### 2021 : Android Mobile Developer - Zôdio

4 months

In the IT department as an intern developer: learning Java and Android Studio,  
integrating new functionalities and implementing updates to the employees'  
application.

### 2019 : Internship - Pictime Groupe

1 week

In web and security services: discovering web development and the everyday life  
of a developer.

### 2018 : Internship - Groupe Adeo

1 week

In the Connected Objects department: discovering the world of work and  
corporate life.
